

Special Day

This is sung by the entire cast during the VE Day celebrations.

Today - Today

A day like today's, a very special day
We're gonna celebrate, in every kind of way
Raise your glass, shout out loud, hip, hip, hip hooray
Today's a very special day

A day like today, is well worth waiting for
Feeling so happy, you couldn't want for more
A day to remember, that'll be for sure
Today's a very special day

*Today's the day, feel the sun come shining through
A day like today, when all your dreams come true
A day worth living, that's why I'm telling you
Today's a very special day*

Today's a special day, no shadow of a doubt
It's the sort of day you can feel great about
A day of smiles and laughter, we can't live without
Let's make every day a special day

*Today's the day, we're gonna have some fun
We're gonna sing and dance - a special day has come
So play that piano, bang that big bass drum
Today's a very special day*
