

The Best Thing

This is the first song in the show and it is sung by Winston and Clemmie during the festivities at their wedding reception.

I've been places - so many faces
I like to think my feet are on the ground
Then out the blue, someone like you
Goes and turns my whole world upside down

No rhyme or reason - a certain feeling
Makes you realise it's all meant to be
No doubt about it - I can't live without it
'Cos you're the best thing that happened to me

*Seems all my life I have lived for you
Now I believe dreams can come true*

I see clearly for the first time
And I can tell you in all honesty
I won't deceive you, and I'll never leave you
'Cos you're the best thing that happened to me

Instrumental Verse

*Seems all my life I have lived for you
Now I believe dreams can come true*

I see clearly for the first time
And I can tell you in all honesty
I won't deceive you, and I'll never leave you
'Cos you're the best thing that happened to me
'Cos you're the best thing that happened to me
