

## **Watch Me Dance**

*This is sung by the staff at Bletchley Park, who have all gone to the Mecca Ballroom in the Strand to celebrate their having broken the Enigma Codes and they are having their first night off in months. They join in, and sing and dance with the crowds already there.*

Watch me dance, watch me dance, watch me dance, yeah

Come on down to the dancing hall, see the lights of the mirror ball  
Listen to that music call, come on and watch me dance  
Now's the time to kick off your shoes, if you wanna get rid of the blues  
Look at me, you've got nothing to lose, come on and watch me dance  
I'll keep on dancing, go right on through the night  
I can't stop dancing, 'till I see that morning light  
It's as easy as ABC, get up and set your spirit free  
Get your body to follow me, come on and watch me dance, watch me dance

Surprise yourself and have some fun, seems the party's just begun  
Let me show you how it's done, come on and watch me dance  
Take some time out across the floor, one thing you gotta know for sure  
You'll keep coming back for more, come on and watch me dance  
Once you start dancing you'll set your spirit free  
There's nothing like it, you can't do that from me  
Keep moving you'll be OK, let the rhythm take you away  
Listen how that band can play, come on and watch me dance, watch me dance

### *Three Instrumental Verses*

We're all down to the dancing hall, 'neath the lights of the mirror ball  
Listen to that music call, come on and watch me dance  
Now's the time to kick off your shoes, if you wanna get rid of the blues  
Look at me, you've got nothing to lose, come on and watch me dance  
I'm going crazy, don't let the music stop  
I'll keep on dancing, be dancing 'til I drop  
It's as easy as ABC, when you set your spirit free  
Let your body follow me, come on and watch me dance, watch me dance.

YEAH
