

## **What would I do without you**

*This is sung by Winston and Clemmie during one of their rare moments together. They realise that despite everything going on in their lives, being together is still all that really matters to them.*

There are many times when I simply forget  
How fortune smiles on me  
Sometimes I get a little blind you know  
To things not hard to see

Then as you give me that look of yours  
The one with laughter in your eyes  
All my trials and tribulations disappear  
As I begin to realise

*What would I do without you  
Where on earth would I be  
You make life so wonderful  
You're all the world to me  
What would I do without you  
How could I carry on  
We were meant for each other  
We're both where we belong*

Whenever my time is over  
One thing I'll know for sure  
Someone really loved me  
And who could ask for more

*What would I do without you  
Where on earth would I be  
You make life so wonderful  
You're all the world to me*
